HOW TO TREAT WOMEN.

American Way Differs from that of Other Nations.

It is only in America that women of all lasses receive that respect and consideration which they are so unquestionably en-titled to by nature. In Vienna women d g cellers and carry hods; in Paris they clean the strests; in other European lands they drudge in the fields for a triffing wage; in America alone is their task confined to the domestic circle and about the sacred earth of homes which they render so heer

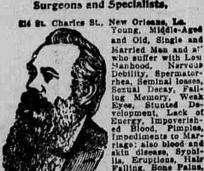

ful and happy.

But this domestic life of women has also its penulties, for nowhere more than here do they suffer so much physically from the strain of household duties superadded to smain of household duties superadded to those of the wife and mother. Many are the weak and nervous women who would sink under the burden if it were no. for "G. F. P.," that famous vegetable specific which is a cure for all female attended an inspiring onle both for body and brain. Thousands of women have found it a blessing in their special troubles and its meritaere fully recognized by the best American physicians. The preparation can be had of all druggiets, but if it is out of stock a bottle of Gerside's Female Panana will be sent by the manufacturers, L. Gerstle & Co., of by the manufacturers, L. Gerstle & Co., of Chantanoogia, Tenn., propind for \$1.00.
